OUTDOOR BLINDS & ROLLER SHUTTERS
PRODUCT CATALOGUE

SHADE, PRIVACY & SECURITY.

PRECISION-MADE.
TRUE-LEVEL DELIVERED.

BRING THE OUTDOORS IN

EXPERIENCE TRUE OUTDOOR COMFORT

Whether you want to shield the weather for the ideal outdoor kitchen, enclose the pergola or create your own alfresco courtyard, TrueLevel track blinds are the perfect solution — measured, made to order and installed by our own team.

Engineered to perform in the harsh Australian climate, the robust high-density aluminium frame has exceptional built-in flex resistance for problem-free blind motion — with optimal alignment for a taut, tailored finish that compliments any outdoor setting.

UP TO 10-YEAR WARRANTY

- 10 Year warranty on fabric
- 5 Year warranty on motors, hardware & extrusions
- 2 Year warranty on workmanship

CUSTOM-MADE IN AUSTRALIA

SUN & UV

Block up to 95% of UV — protection all year round

WIND RESISTANT

Peace-of-mind performance in coastal wind

PRIVACY

Create a private retreat without losing airflow

GLARE BLOCKING

Cut harsh glare while keeping the view

INSECT SCREEN

Enjoy your environment, bug-free

COASTAL APPROVED

Sea-breeze safe, built for WA conditions

SUPER STRONG

Built-in patented strength, 25% heavier frame

MADE TO MEASURE

Custom-made in Australia to your exact sizes

WHY AN EZIP® TRACK BLIND?

Ordinary outdoor blinds sag, flap and let the weather in. The eZIP® track system is engineered to do the opposite — here's why it's a better blind, year after year.

STAYS PERFECTLY TAUT

A self-lubricating zip holds the fabric flat and tensioned, so it won't sag, bow or flap like rope-and-pulley blinds.

WHISPER-QUIET OPERATION

A floating side channel and sound-absorbing components give smooth, rattle-free motion, even in a breeze.

ROLLS DOWN DEAD LEVEL

An evenly-weighted bottom rail with suspended steel weight sits straight and true, every single time.

SEALED ON EVERY SIDE

Fully enclosed side channels — no visible tapes or welds — keep wind, rain and insects out far better than open-edge blinds.

HOLDS FIRM IN COASTAL WIND

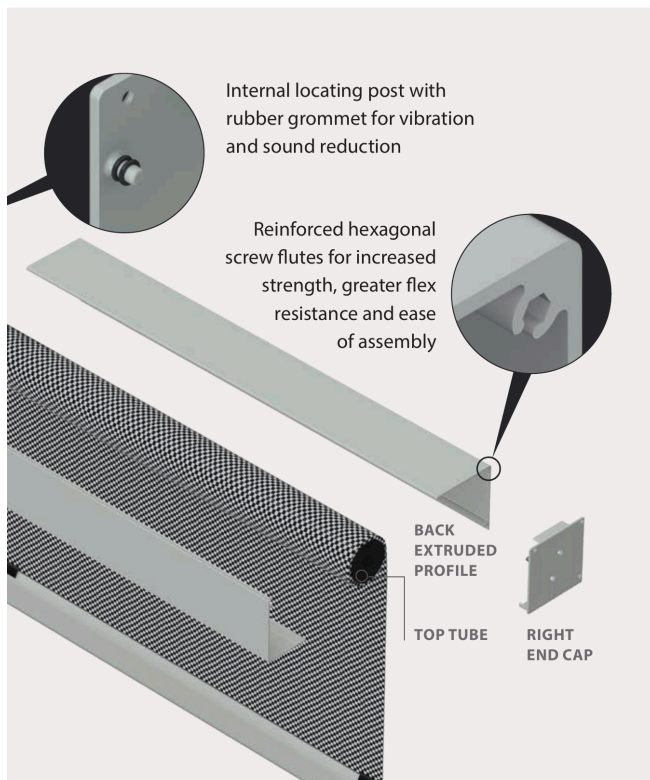

Patented multi-direction tension adjustment keeps the blind aligned and in its tracks where lesser blinds pull free.

BUILT FOR THE LONG HAUL

Reinforced fixings and built-in water drainage stand up to the harsh Australian climate, season after season.

ENGINEERED TO OUTLAST THE REST

Not all outdoor blinds are built the same. Where lesser blinds flex, fade and let the weather in, every part of a TrueLevel blind is engineered for strength, protection and a longer life outdoors.

Cutaway of a track-blind headbox & bottom rail. Profiles may vary.

- ✓ **HEAVIER-GRADE ALUMINIUM**
A stronger extruded frame and reinforced headbox that won't flex, warp or corrode.
- ✓ **ROLLER & MOTOR FULLY CONCEALED**
Tucked inside the headbox, protected from sun, salt and rain.
- ✓ **NO EXPOSED TAPES OR WELDS**
The weak points that fail first on cheaper blinds are engineered out.
- ✓ **QUIET, ANTI-VIBRATION RUNNING**
Bearing idlers and grommets for smooth, rattle-free operation, year after year.
- ✓ **LAY-FLAT, SELF-LUBRICATING ZIP**
Keeps the fabric taut and rolling true — no sagging, flapping or jamming.
- ✓ **MARINE-GRADE, WATER-DRAINING BUILD**
Made to shrug off the harsh Australian climate, season after season.

BUILT TO OUTLAST THE REST.

Premium materials, backed by a 10-year warranty — and installed by the owners, never subcontracted.

SHAW DAYSCREEN FABRIC, ANY COLORBOND® COLOUR

Every TrueLevel blind is made with premium Australian-made **Shaw Dayscreen** screen fabric — durable, low-maintenance and rated for harsh conditions. Choose your openness factor for the right balance of view, airflow and privacy.

1%

DAYSCREEN 1% – PRIVACY & BLOCK-OUT

Tighter weave for maximum privacy, glare control and UV protection. Ideal for bedrooms, west-facing walls and street frontage. Available 320cm wide.

5%

DAYSCREEN 5% – VIEW & AIRFLOW

More open weave to keep your outlook and breeze while still cutting sun, glare and insects. The all-round favourite for alfresco & patio. Up to 320cm wide.

DAYSCREEN COLOUR RANGE

FRAME & PELMET – ANY COLORBOND® COLOUR

Powder-coat your headbox, channels and bottom rail in any Colorbond® colour to match your roof, gutters or fencing for a seamless look.

AUTOMATE YOUR LIVING SPACE

Your eZIP® blinds run on two control options — simple spring operation, or fully motorised for effortless, app-ready control.

SPRING

0.7m → 3.8m wide

Smooth spring-assisted operation — glide it down, glide it back up. Up to 2.7m drop.

MOTORISED

0.8m → 6.0m wide

Quiet tubular motor with a channel remote, at the touch of a button. Up to 3.5m drop.

PLATINUM MOTORS & SMART CONTROL

Motorised blinds are driven by premium, whisper-quiet **Platinum** tubular motors with multi-channel remotes — control one blind or a whole group from a single handset.

Multi-channel remote control

Optional Wi-Fi hub for app & scheduling

Smart-home integration where supported

TRUELEVEL MADE-TO-MEASURE SIZING

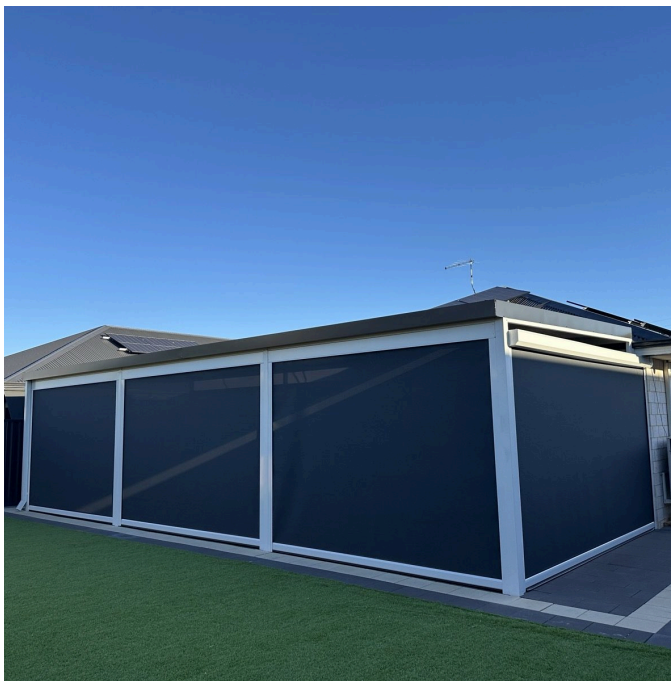

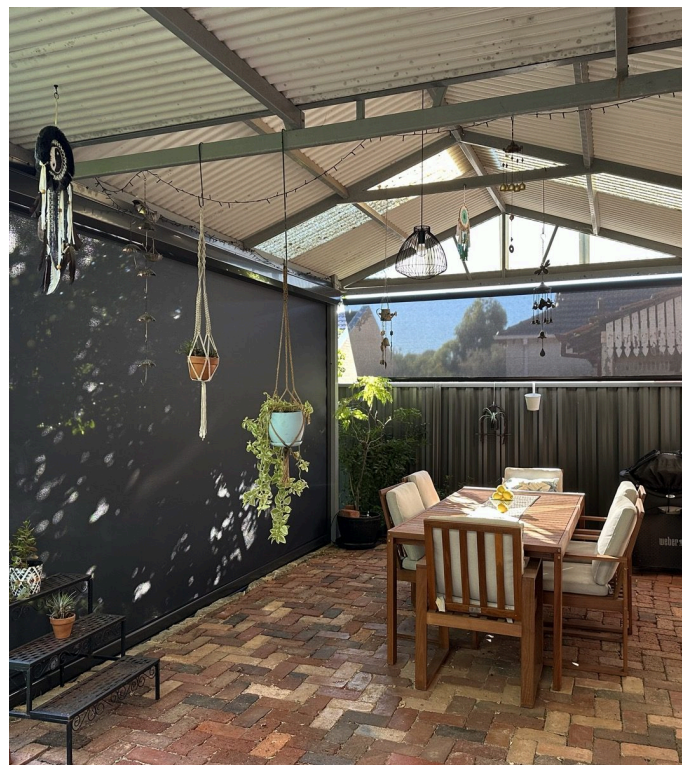

For openings wider than **6.0m**, we recommend dividing into two blinds for a taut, true-level finish across the full span.

Prefer a crank? Ask about our crank-operated **straight-drop blinds** — a budget-friendly option without tracks or pelmet. Discussed at your free measure & quote.

RECENT BLIND INSTALLATIONS

Real jobs, real WA homes — every blind measured, made to order and installed by the TrueLevel team.

ALSO FROM TRUELEVEL

ALUMINIUM ROLLER SHUTTERS

Beyond outdoor blinds, TrueLevel custom-makes and installs **aluminium roller shutters** — the ultimate all-in-one upgrade for security, comfort and energy savings. Made to measure for any window or door, manual or motorised.

SECURITY & BREAK-IN PROTECTION

A solid aluminium barrier against intruders — essential for unattended or remote properties.

HEAT & INSULATION

Reduce heat transfer by up to 90% — cooler in summer, warmer in winter, lower bills.

COMPLETE LIGHT CONTROL

Full blackout when closed — perfect for shift workers, nurseries and home theatres.

STORM & CYCLONE PROTECTION

Shield windows and doors from flying debris, hail and severe WA weather.

NOISE REDUCTION

Block road, machinery and wildlife noise for better sleep and comfort.

PRECISION CUSTOM FIT

Made to measure for your exact openings — we handle non-standard sizes and tricky installs.

BATTERY OR MOTORISED, BUILT TO LAST

Made to measure and installed by our team — choose **battery-powered** (Ozroll E-Port) or **electric mains-powered** (Platinum) motorisation, with no manual winding. Australian-made with a 4–5 week turnaround.

Powder-coated to suit your home — operate by remote, wall switch or timer. Battery or mains-powered options discussed at your free measure & quote.

MADE TO MEASURE FOR EVERY OPENING

Custom-made and professionally installed for windows, doors and whole homes — colour-matched to your place and built to handle whatever the WA weather brings.

From a single window to a whole home — we measure, make and install to suit your property and budget.
